TOOLS REQUIRED

N/A

STEP 1

Empty the center console of all contents. Place the (1) LH side panel and (1) RH side panel against each side of the glove box.

Note: Look for the identifier embossed into the panel to ensure proper side installation:

L: LH side of glove box

R: RH side of glove box

STEP 2

Assemble the (1) vertical divider to the (1) horizontal divider.

Note: Look for the identifier embossed into the panels to verify installation orientation.

STEP 3

Insert the divider assembly into the glove box, inserting each side into the previously installed side panels.

Installation is now complete.
