TOOLS REQUIRED

N/A

STEP 1

Fold the rear seat backs down towards the front of the vehicle. Using each appropriate upper seat back protector, press the protector onto the carpeted seat back. Ensure the protector is below the lower carpeted portion.

STEP 2

Using each appropriate lower seat back protector, press the protector onto the lower carpeted portion of the seat back. Ensure the rippled portion is towards the rear of the vehicle.

STEP 3

Fold the rear seats back into the vertical position.

Installation is now complete.
