(UNIVERSAL FITMENT)

---

## INSTALLATION INSTRUCTIONS

### CONTENTS

---

(2) LED License Plate Bolts

### TOOLS REQUIRED

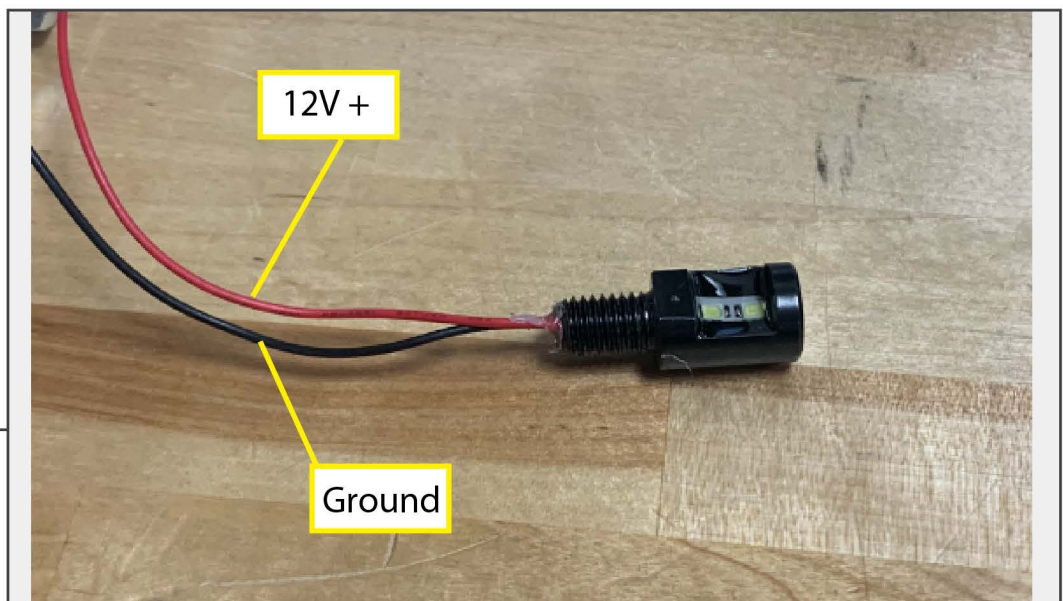

---

14mm Wrench

SKU # 9912

**STEP 1**

Route the LED License Plate Bolt wiring through the license plate and the license plate bracket. Using the provided nut, secure the LED License Plate Bolt into place, be sure to point the light onto the license plate.

**STEP 2**

Wire the lamps into a parking light electrical circuit. Installation is now complete.

Red on LED: 12V+ / Positive

Black on LED: Negative / Ground
