

REAR SEAT CUP HOLDER

(2021-2023+ BRONCO - 4 DOOR)

INSTALLATION INSTRUCTIONS

CONTENTS

(1) Cup Holder Assembly
(1) Mounting Bracket

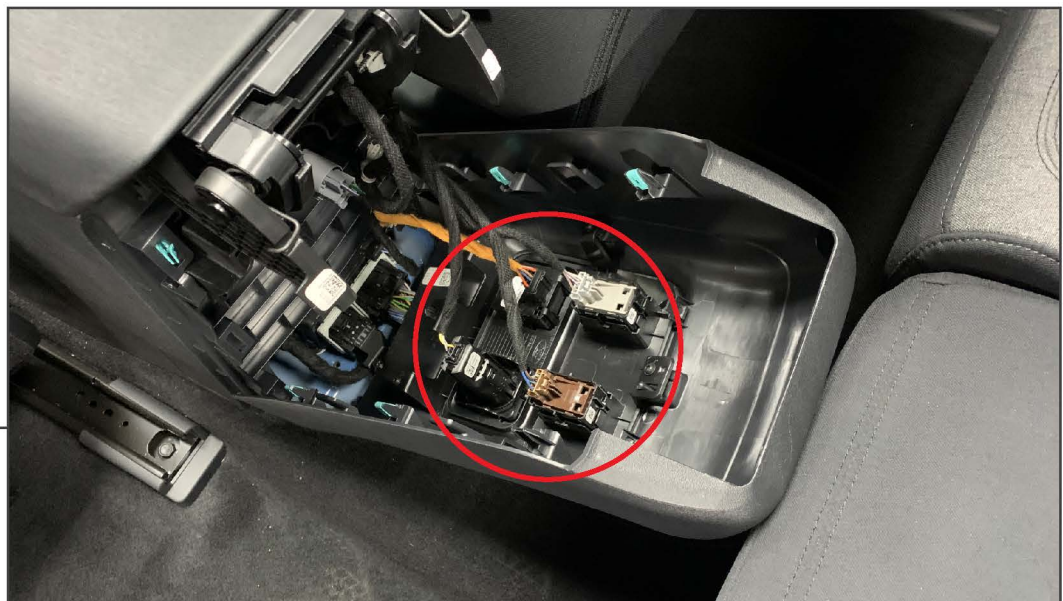

TOOLS REQUIRED

T-20 Torx Screwdriver/Bit
Plastic Pry Tool

STEP 1

Using a plastic pry tool, pry from the top of the center console panel to dislodge the (6) side plastic retaining clips from the center console.

STEP 2

Unplug the (4) wiring harnesses from the panel, and remove the panel from the vehicle and place on a soft workable surface.

STEP 3

Remove (2) T-20 Torx screws from the bottom of the center console panel.

STEP 4

Align the mounting bracket to the bolt holes, and then secure the bracket to the center console panel using the original (2) T-20 Torx screws. Tighten until secure.

STEP 5

Fit the center console panel with the mounting bracket to the vehicle, and press into place to secure.

Take note to the holes in the mounting bracket closest to the center console panel, this will assist alignment later.

STEP 6

Fit the cup holder to the mounting bracket by aligning the dowel pins on the bottom of the cup holder to the holes in the mounting bracket. Aligning the holes may require moderate pressure. Once the dowels are aligned, the magnets on the bottom of each cup holder will secure the assembly into place.

Installation is now complete.
