

# DASH MOUNTED USB HUB

(2021-2023+ BRONCO)

---

## INSTALLATION INSTRUCTIONS

### CONTENTS

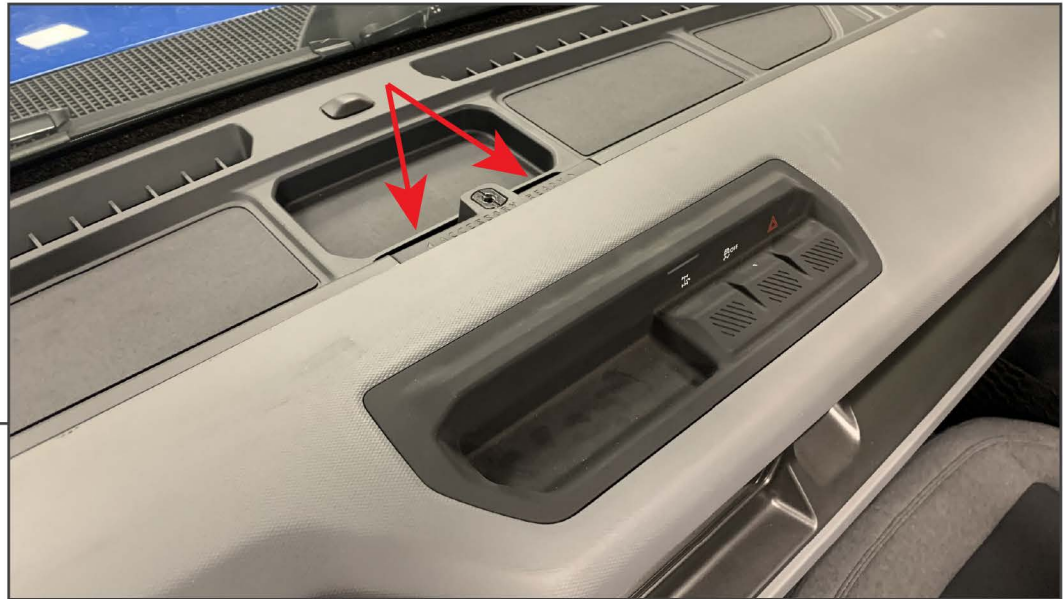

---

- (1) USB Hub
- (1) 'T' Harness
- (2) Plastic Trim Pry Tools

### TOOLS REQUIRED

---

- T-20 Torx Screwdriver/Bit
- Plastic Trim Pry Tool (Provided)

## STEP 1

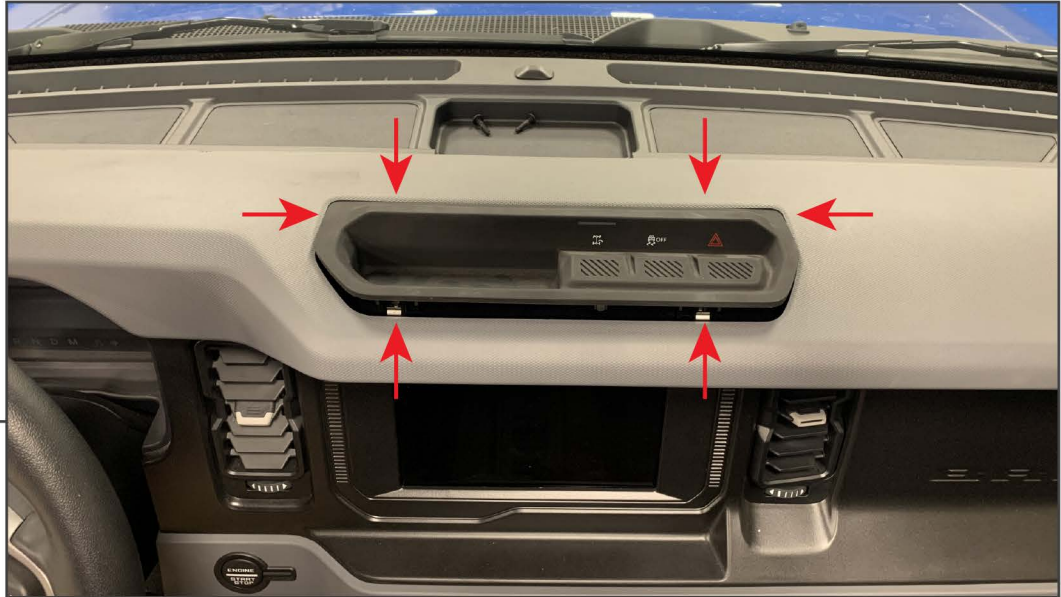

Remove (2) T-20 Torx screws from the “ACCESSORY READY” panel in the dashboard.

## STEP 2

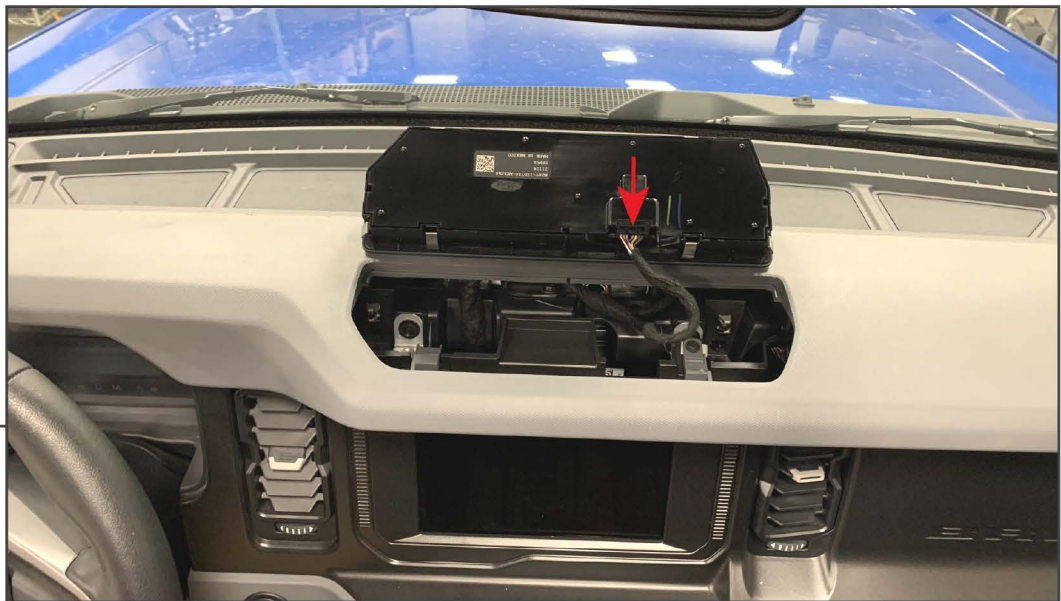

Using the provided plastic trim panel tool, pry the “ACCESSORY READY” panel from the vehicle dashboard.

Note: The (2) T-20 Torx bolts will be reused.

## STEP 3

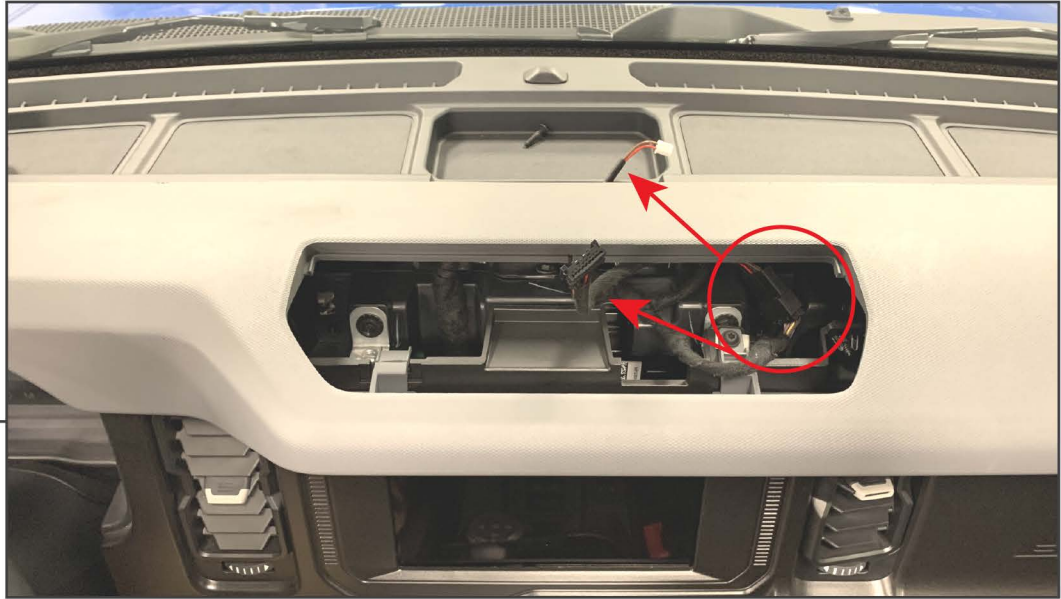

Using the provided plastic trim panel tool, pry the dashboard switch panel away from the dashboard.

## STEP 4

Unplug the vehicle dashboard switch panel by depressing the tab on the connector. Set the dashboard switch panel aside.

## STEP 5

Plug the 'T' harness into the vehicle dashboard switch panel wiring harness. Then, route the USB hub connector towards the "ACCESSORY READY" panel opening. Route the dashboard switch panel connector of the 'T' harness towards the switch panel mounting area.

## STEP 6

Plug the dashboard switch panel into the 'T' harness, and press the switch panel into place in the vehicle dashboard, press firmly to ensure proper engagement to the dashboard.

## STEP 7

Plug the USB hub into the 'T' harness.

## STEP 8

Secure the USB hub to the vehicle using the original (2) T-20 Torx screws.

Installation is now complete.
