

CARGO AREA LED LIGHTING

(2021-2023+ BRONCO)

INSTALLATION INSTRUCTIONS

CONTENTS

(1) LED Cargo Light

TOOLS REQUIRED

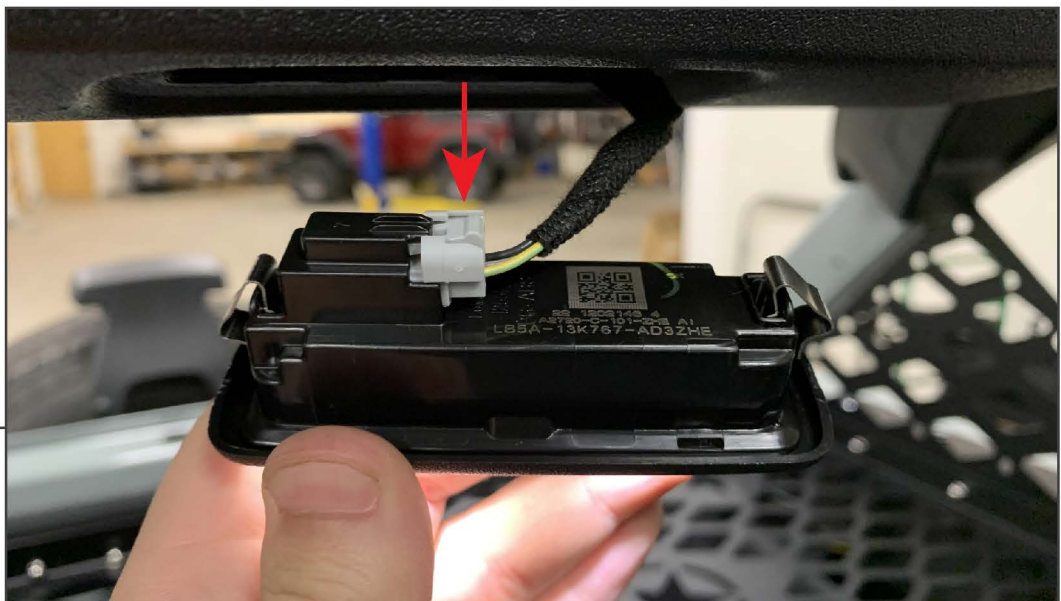

Small Pry Tool

STEP 1 (ROLL BAR)

Locate the light mounted in the vehicle roll bar. Using a small pry tool, dislodge the light housing from the vehicle.

See steps 4-6 for optional cargo area light mounting.

STEP 2 (ROLL BAR)

Press the electrical connector tab to disconnect the vehicle light from the harness.

STEP 3 (ROLL BAR)

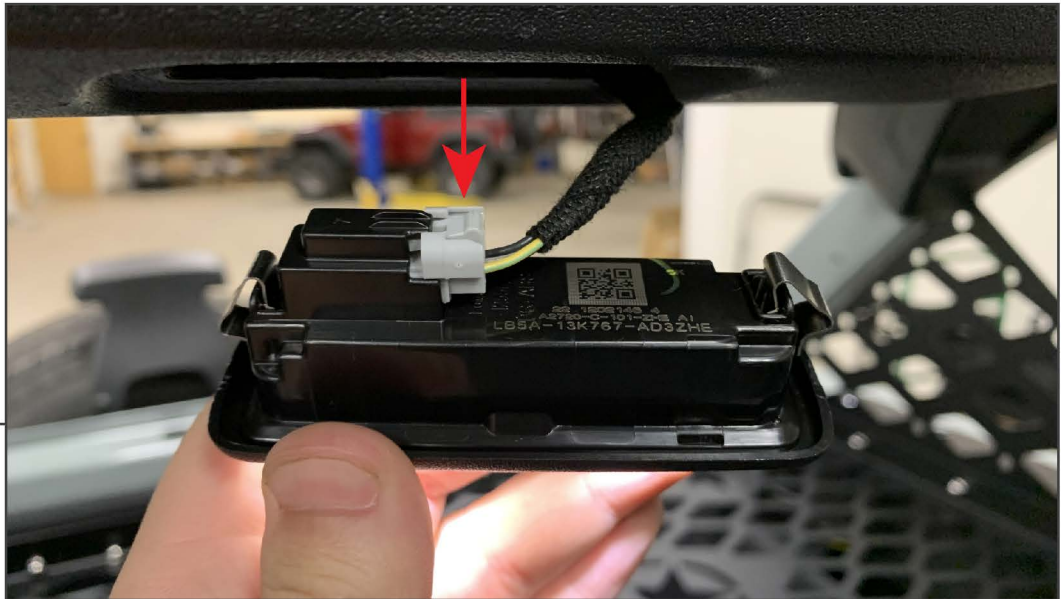

Plug the new light into the vehicle harness, and press the light into place. Bend the metal clips for best fit if necessary. Roll bar installation is now complete.

See steps 4-6 for cargo area installation.

STEP 4 (CARGO AREA)

Locate the rear seat/cargo area light in the vehicle roll bar. Using a small pry tool, dislodge the light housing from the vehicle.

**STEP 5
(CARGO AREA)**

Press the electrical connector tab to disconnect the vehicle light from the harness.

**STEP 6
(CARGO AREA)**

Plug the new light into the vehicle harness, and press the light into place. Bend the metal clips for best fit if necessary.

Installation is now complete.
