STEP 1

Clean the inside of the door panel grab handle using (1) adhesion promoter prep pad, and allow to fully dry.

Each storage organizer is specific to each vehicle door. Test fit each organizer to the vehicle before peeling the tape backing to proper fitment location.

STEP 2

Once familiar with fitment, peel the red tape backing from the tape, and fit the product into the door panel grab handle. Firmly press the tape into the door panel to encourage adhesion.

Repeat steps 1-2 for all remaining organizers.

Installation is now complete.
