

WINDSHIELD MOUNTED DUAL LIGHT BRACKETS

(2007-2018 WRANGLER JK)

INSTALLATION INSTRUCTIONS

CONTENTS

(1) LH Light Bracket
(1) RH Light Bracket

TOOLS REQUIRED

T-40 Torx Socket
Ratchet

STEP 1

Locate the (2) T-40 Torx bolts at the bottom of the vehicle windshield. Remove the (2) Torx bolts from the vehicle.

STEP 2

Identify the LH and RH light brackets. The bottom edge of the bracket will fit the contour of the vehicle cowl. Once identified, secure the bracket to the vehicle using the original (2) T-40 Torx bolts. Tighten the hardware evenly until fully secure.

Install LED lighting to the brackets using the hardware included with the lights. Lighting sold separately.

Installation is now complete.
