STEP 1

Wash the grille with soap and water. Allow the grille and surrounding areas time to dry.

Wipe the grille surrounds with isopropyl alcohol and a microfiber cloth to ensure the cleanest surface possible.

STEP 2

Familiarize yourself with how the grille insert fits prior to peeling off the double sided tape. Then, remove the tape and apply firm even pressure to ensure proper adhesion. Be sure the grille inserts are all aligned before pressing down to fully seat the adhesive tape.

Installation is now complete.
