

# **JL STYLE LED TAIL LIGHTS**

(2007-2018 JEEP WRANGLER JK)

---

## INSTALLATION INSTRUCTIONS

### CONTENTS

---

(1) LH Tail Light  
(1) RH Tail Light

### TOOLS REQUIRED

---

Phillips Head Screwdriver

**STEP 1**

Using a Phillips head screw driver, remove the (2) inner most screws from the tail light.

**STEP 2**

With the screws removed, pull the light away from the vehicle. If you electrical connector has a red tab lock, pull the lock back, then depress the electrical connector tab and pull the connectors apart. Remove the light from the vehicle.

**STEP 3**

Plug the LED tail light wiring harness into the factory electrical connector and test for functionality.

**STEP 4**

Re-install the factory screws. Installation is now complete.
