

FUEL FILLER DOOR

(2007-2018 WRANGLER JK)

INSTALLATION INSTRUCTIONS

CONTENTS

- (1) Fuel Filler Door
- (1) Grommet

TOOLS REQUIRED

- Phillips Head Screwdriver
- Flat Blade Screwdriver
- Soft Pry Tool

SKU # J134454

STEP 1

Begin by removing the gas cap. Use a soft pry tool to remove the gas cap tether from the plastic surround.

STEP 2

Using a Phillips head screw driver remove the (2) inner most screws on the LH tail light. Disconnect the tail light and set it aside.

STEP 3

Through the tail light opening, locate and press the tabs securing the factory gas filler surround to the vehicle. Pull the surround away from the vehicle and set aside.

STEP 4

Ensure the new fuel door has the filler neck grommet installed.

STEP 5

Press the new fuel door over the filler neck and clip it onto the vehicle. Reinstall the fuel cap and fuel cap tether.

STEP 6

Installation is now complete.
