

# CUSTOM FIT FRONT & REAR SEAT COVERS

(1997-2006 JEEP WRANGLER)

---

## INSTALLATION INSTRUCTIONS

### CONTENTS

---

(2) Front Seat Covers  
(1) Rear Seat Cover

### TOOLS REQUIRED

---

Vacuum/Interior Detailer  
(Optional)

**STEP 1**

Pull the top half of the seat cover over the back rest of the seat. Pull down until it is tight.

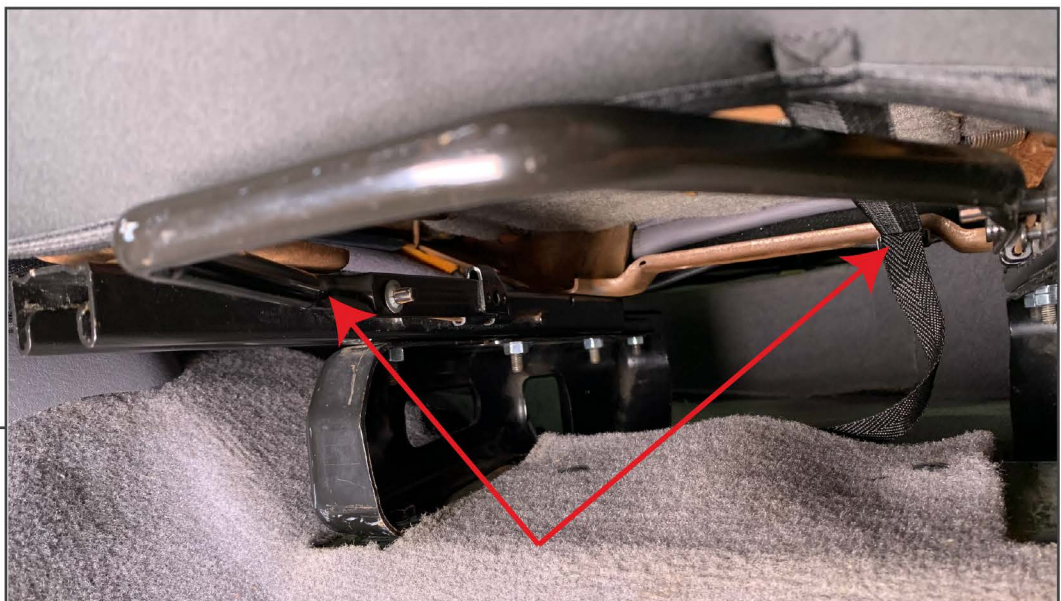

**STEP 2**

Push the flap from the front of the cover through the backrest of the seat. Pull the flap up the back of the backrest, and use the Velcro on the back of the backrest to tightly secure the seat cover to the seat.

**STEP 3**

Install the bottom portion of the seat cover by tucking the end towards the front of the vehicle under the seat first, then go towards the back.

NOTE: Be sure to go around the backrest adjustment lever to keep functionality of the backrest.

**STEP 4**

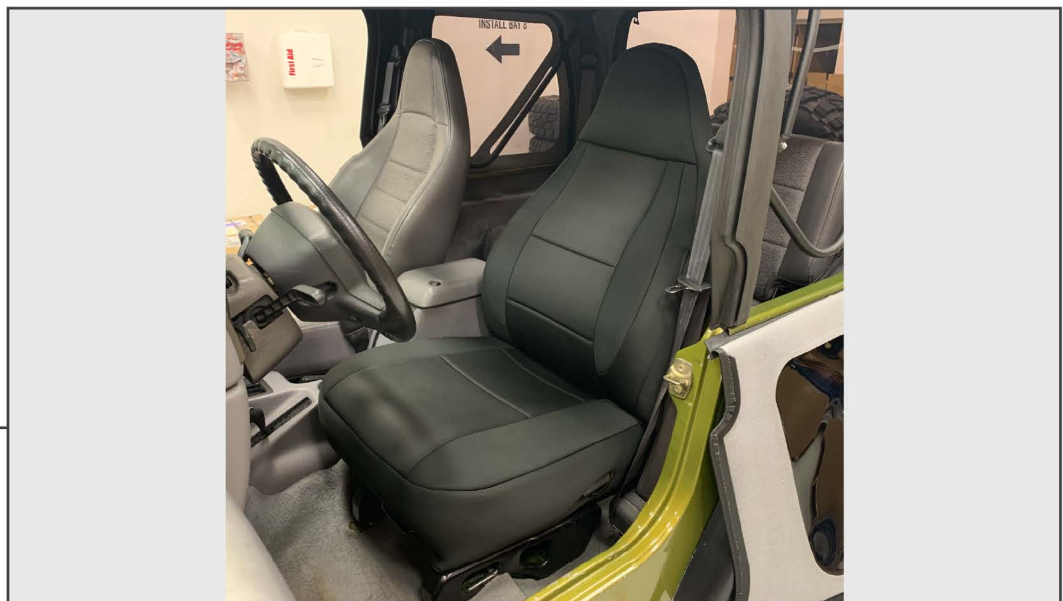

Route the front straps towards the rear of the seat, and clip them into the buckles at the rear of the seat cover. Be sure to route the outer strap over the seat adjustment bar. Tighten the straps once routed.

**STEP 5**

Using the bands and clips located on both sides of the seat cover, route both of them under the seat towards the middle, and clip them together.

NOTE: Only go under the seat, do not go under the sliding rail bracket. See Figure A.

**STEP 6**

Once the straps are clipped together, installation is complete.

---

**STEP 1  
(REAR SEAT  
COVERS)**

Pull the backrest portion of the seat cover over the rear seat.

---

**STEP 2**

Push the flap from the front of the cover through the backrest of the seat. Pull the flap up the back of the backrest, and use the Velcro on the back of the backrest to tightly secure the seat cover to the seat.

**STEP 3**

Slide the (4) straps at the front of the seat cover under the lower seat towards the rear. Attach the straps to the buckles at the rear of the seat cover. Pull all straps tight.

**STEP 4**

Once straps are tight, installation is complete.
