N/A

SKU # J140383

## STEP 1

Route the (2) middle straps over the roll bar in the middle of the vehicle. Loosely secure the straps together using the Velcro.

Note: These straps can fit between the vehicle top and the roll bar, no need to remove the top.

\*All upper straps will be installed loosely to start. Once the bottom hooks are installed, tension will pull the netting tight and the upper straps can be tightened if necessary.

## STEP 2

Route the corner straps over the roll bar. Loosely secure the straps together using the Velcro.

Repeat this procedure for the opposite side.

Note: These straps can fit between the vehicle top and the roll bar, no need to remove the top.

## STEP 3

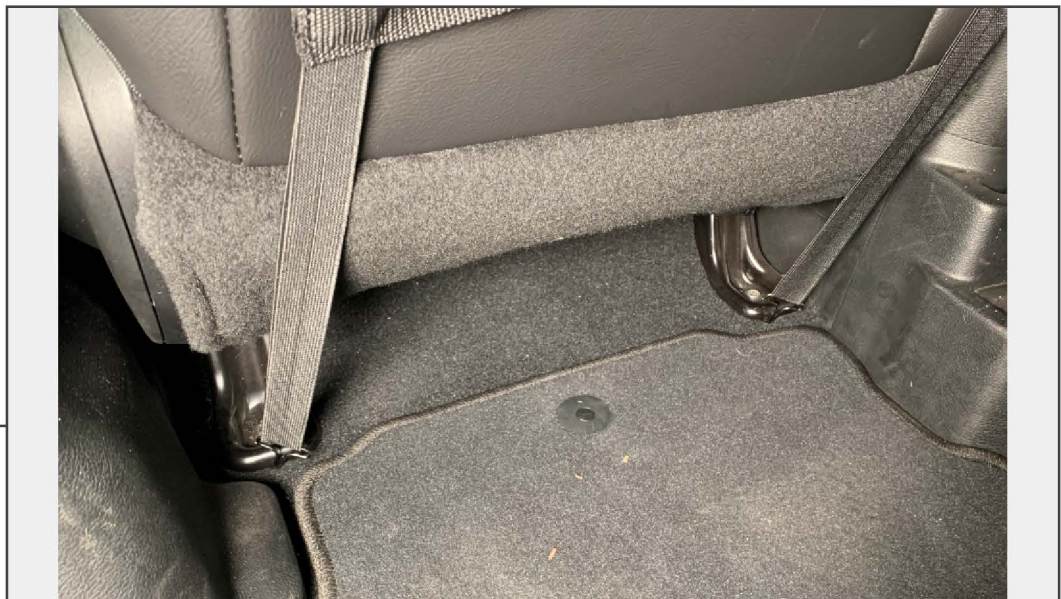

**JL / JT:** Loosely secure the grab handle strap to the grab handle using the Velcro.

**JK:** Remove the strap from the pet divider as it will not be used.

Repeat this procedure for the opposite side.

## STEP 4

Attach the (2) hooks to the bottom of the seat mounts.

Repeat this procedure for the opposite side.

## STEP 5

Tighten all straps evenly.

Installation is now complete.
