**STEP 1**

Remove the rear license plate from the vehicle. Using a flathead screwdriver, release the electrical connector from the license plate holder.

**STEP 2**

Remove (4) 7mm bolts from the license plate holder, then pull the bracket away from the vehicle.

**STEP 3**

Remove (2) Phillips screws from the tail light. Pull the tail light away from the vehicle and unplug the electrical connector.

**STEP 4**

Using isopropyl alcohol and a microfiber towel, clean the quarter panel on the vehicle.

**STEP 5**

Peel back the film on the double sided tape, then align and adhere the body armor to the vehicle.

**STEP 6**

Reinstall the tail light and license plate bracket following steps 1-3 in reverse order. Repeat install procedure to the opposite side.

Installation is now complete.
