

# DOOR PANEL STORAGE KIT

(2018-2023+ WRANGLER JL - 4 DOOR)

(2020-2023+ GLADIATOR JT)

---

## INSTALLATION INSTRUCTIONS

### CONTENTS

---

- (1) Pair of Front Storage Panels
- (1) Pair of Rear Storage Panels
- (2) Self Tapping Screws

### TOOLS REQUIRED

---

- T-20 Torx Screwdriver
- Drill (Optional)
- Isopropyl Alcohol
- Microfiber Cloth

SKU # J150562

## STEP 1 (FRONT)

Clean the designated area of the door panel using isopropyl alcohol and a microfiber cloth. Remove (1) T-20 Torx screw from the bottom of the door panel.

## STEP 2

Peel back the double sided tape from the storage panel. Align the storage panel to the door panel. Re-install the T-20 Torx screw into the door panel to secure the bottom of the storage panel. Firmly press the double sided tape down to secure the upper portion of the storage panel.

## STEP 3

Optional: Using (1) self tapping screw, fasten the top of the storage panel to the door.

## STEP 4 (REAR)

Install the rear storage panel by tucking the external slots on the storage panel inside the netting trim area on the door panel. Begin from the outside most part of the door panel, and work towards the inside ensuring all of the external slots are behind the netting trim.

Installation is now complete.
