

LED LICENSE PLATE LAMP

(2018-2021 WRANGLER JL)

INSTALLATION INSTRUCTIONS

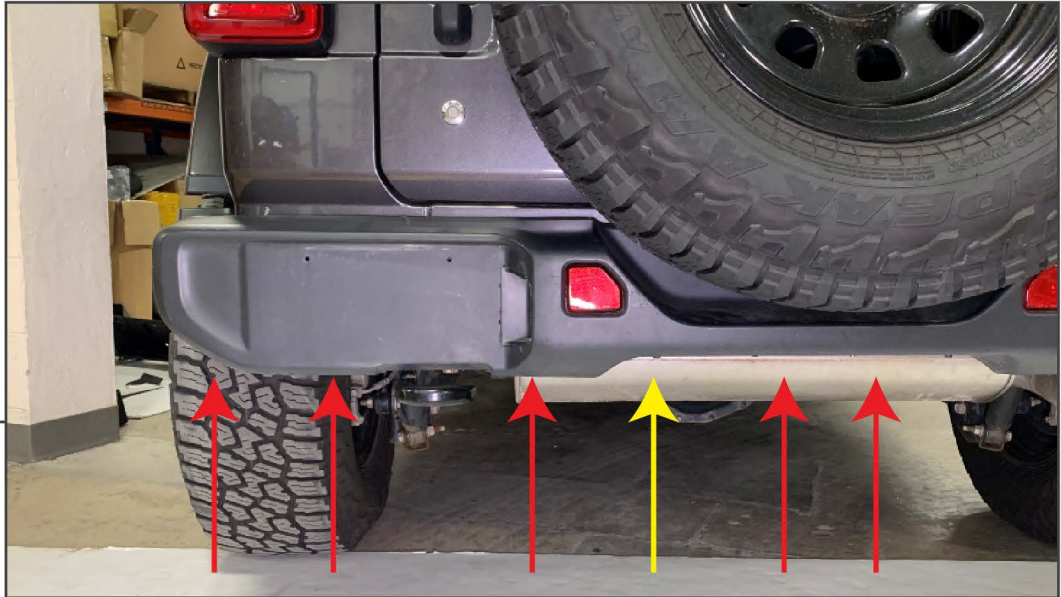

CONTENTS

(1) LED License Plate Lamp

TOOLS REQUIRED

7mm, 10mm Sockets
10mm Deep Socket
Ratchet
Soft Pry Tool

STEP 1

Remove (1) 10mm bolt and (5) 7mm screws from the bottom side of the bumper.

STEP 2

Pull the lower plastic down enough to reveal the license plate light. Unplug the lamp by pushing in the plastic tab on the connector. Remove (2) 10mm nuts from the light using a 10mm deep socket. Removed hardware will be re-used.

STEP 3

Push the light through towards the outside of the bumper.

STEP 4

Plug in the new LED license plate lamp to ensure functionality. Install the new LED license plate lamp into the bumper following steps 1-3 in reverse order.
