

TAIL LIGHTS

SKU # AMJPCC00601

Product Installation Instructions

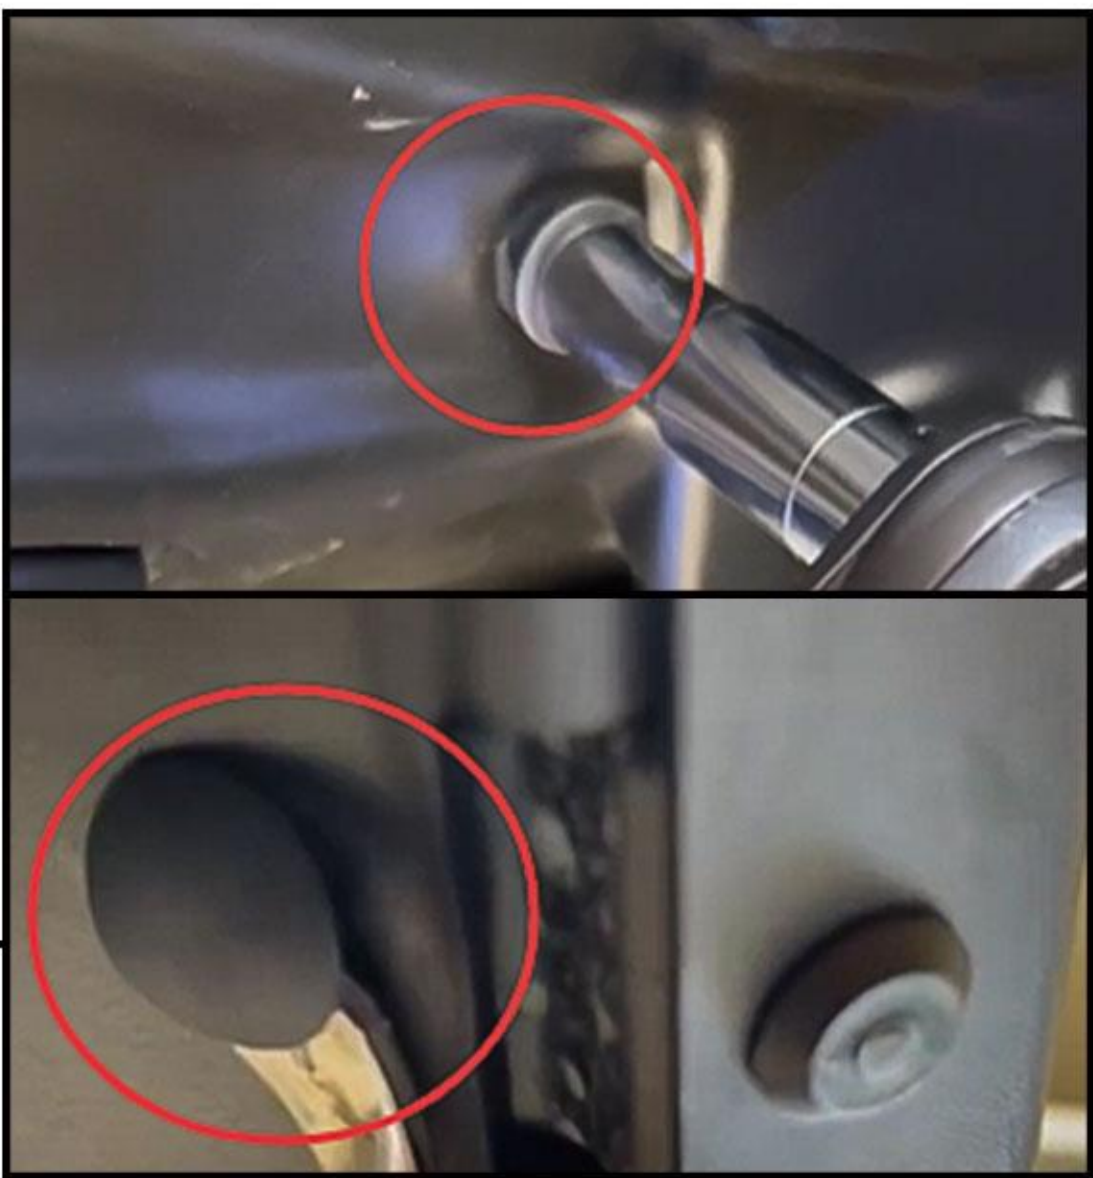

Fitment : 2018-2023 Jeep Wrangler JL & Gladiator JT

STEP 1

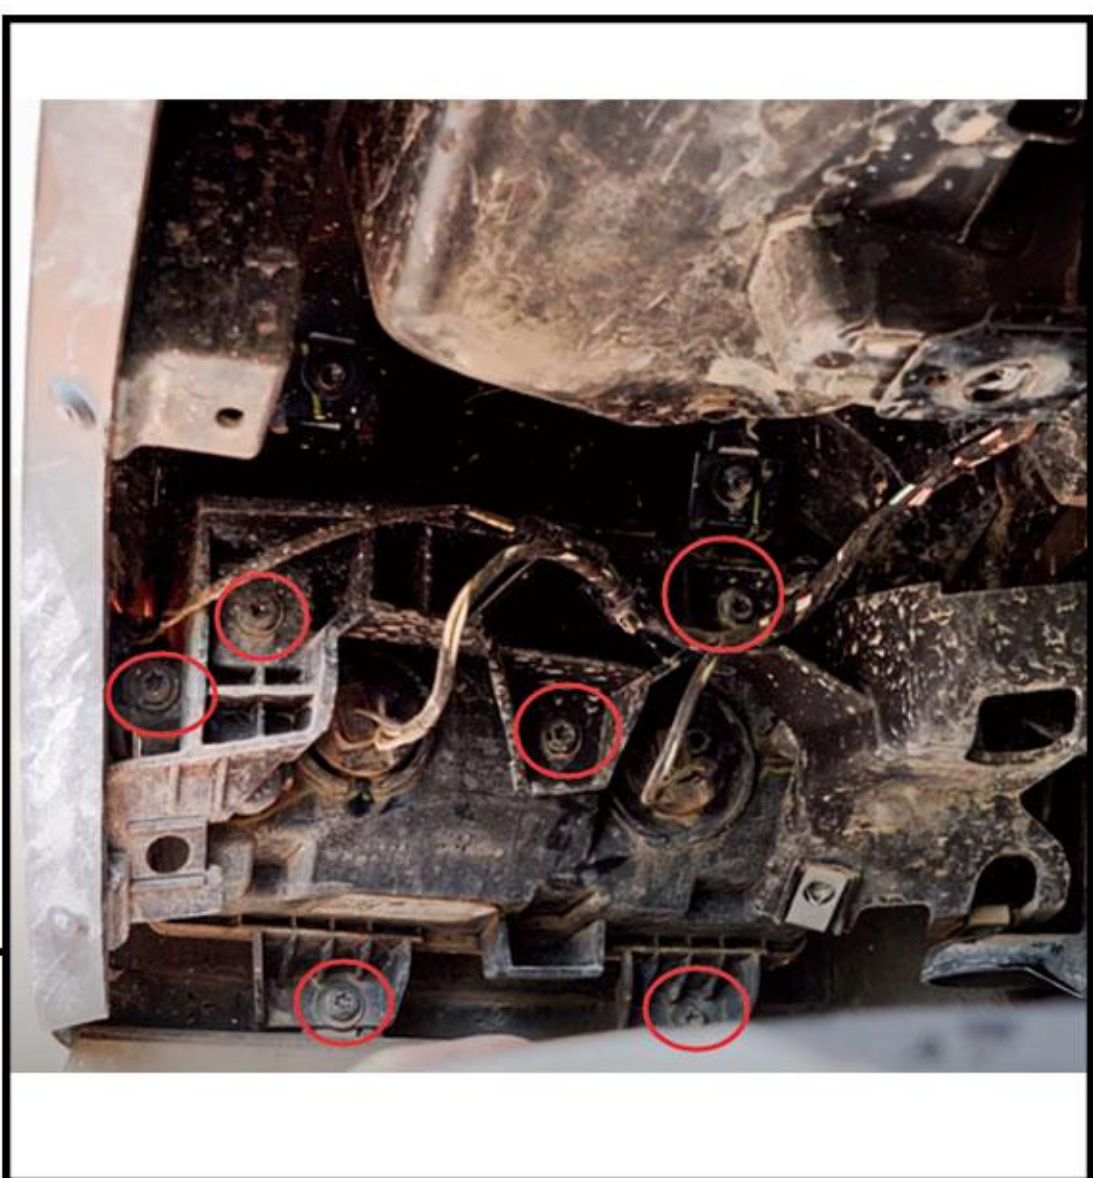

INNER FENDER REMOVAL:
Remove the push clips and bolts on the underside of the fender to remove the fender liner, use a pop rivet removal tool to pry out the base of the fastener.

STEP 2

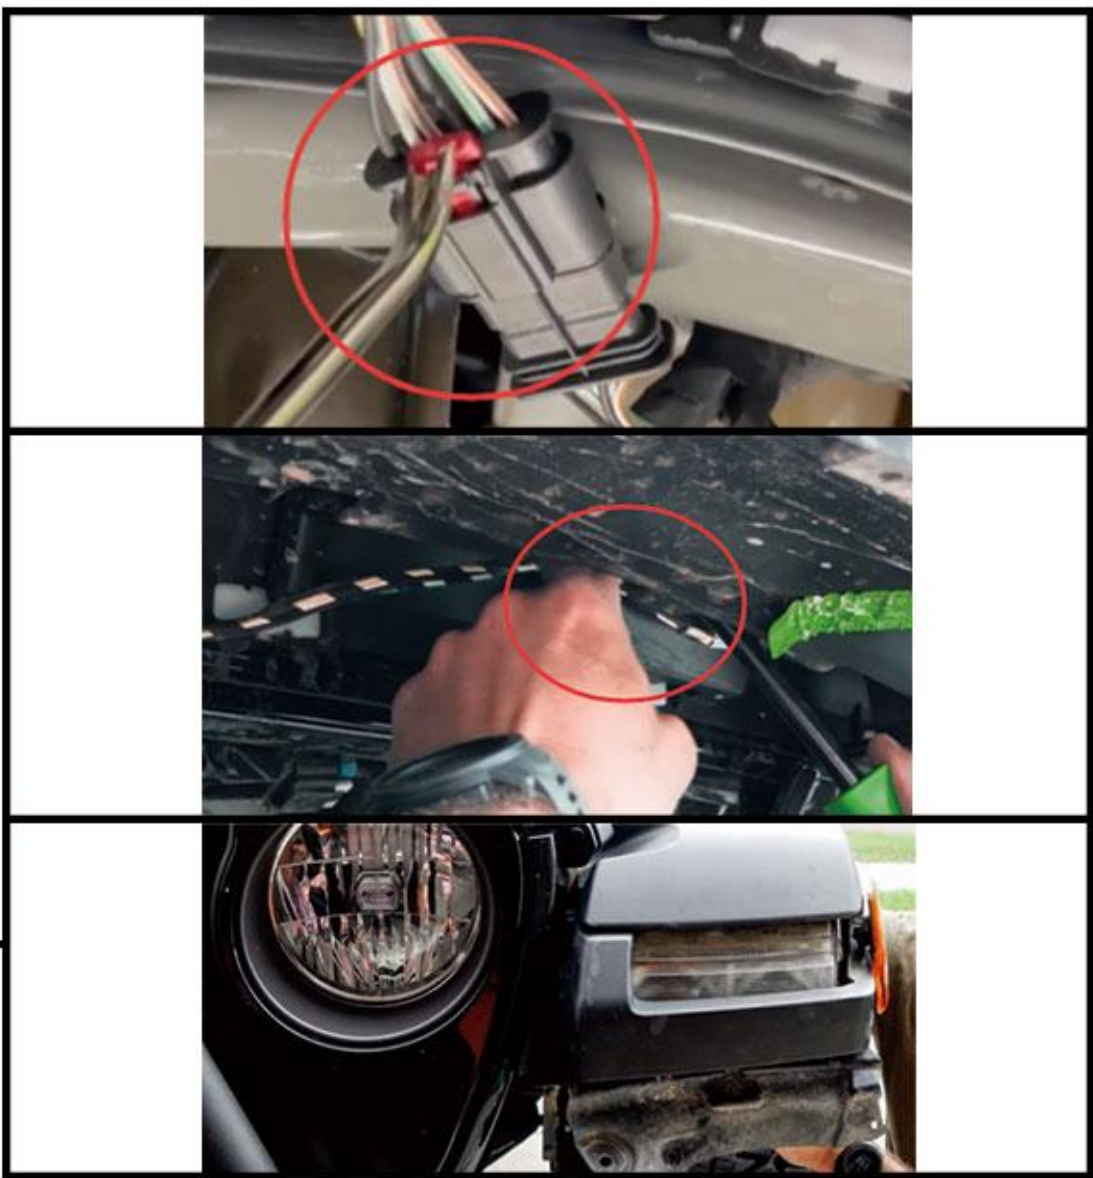

Locate the 10mm bolt situated further towards the inner edge of the fender liner and loosen the bolt with a 10mm socket and using a small pry bar tool to pop up the push Clips.
Gently pull off the wheel well liner.

STEP 3

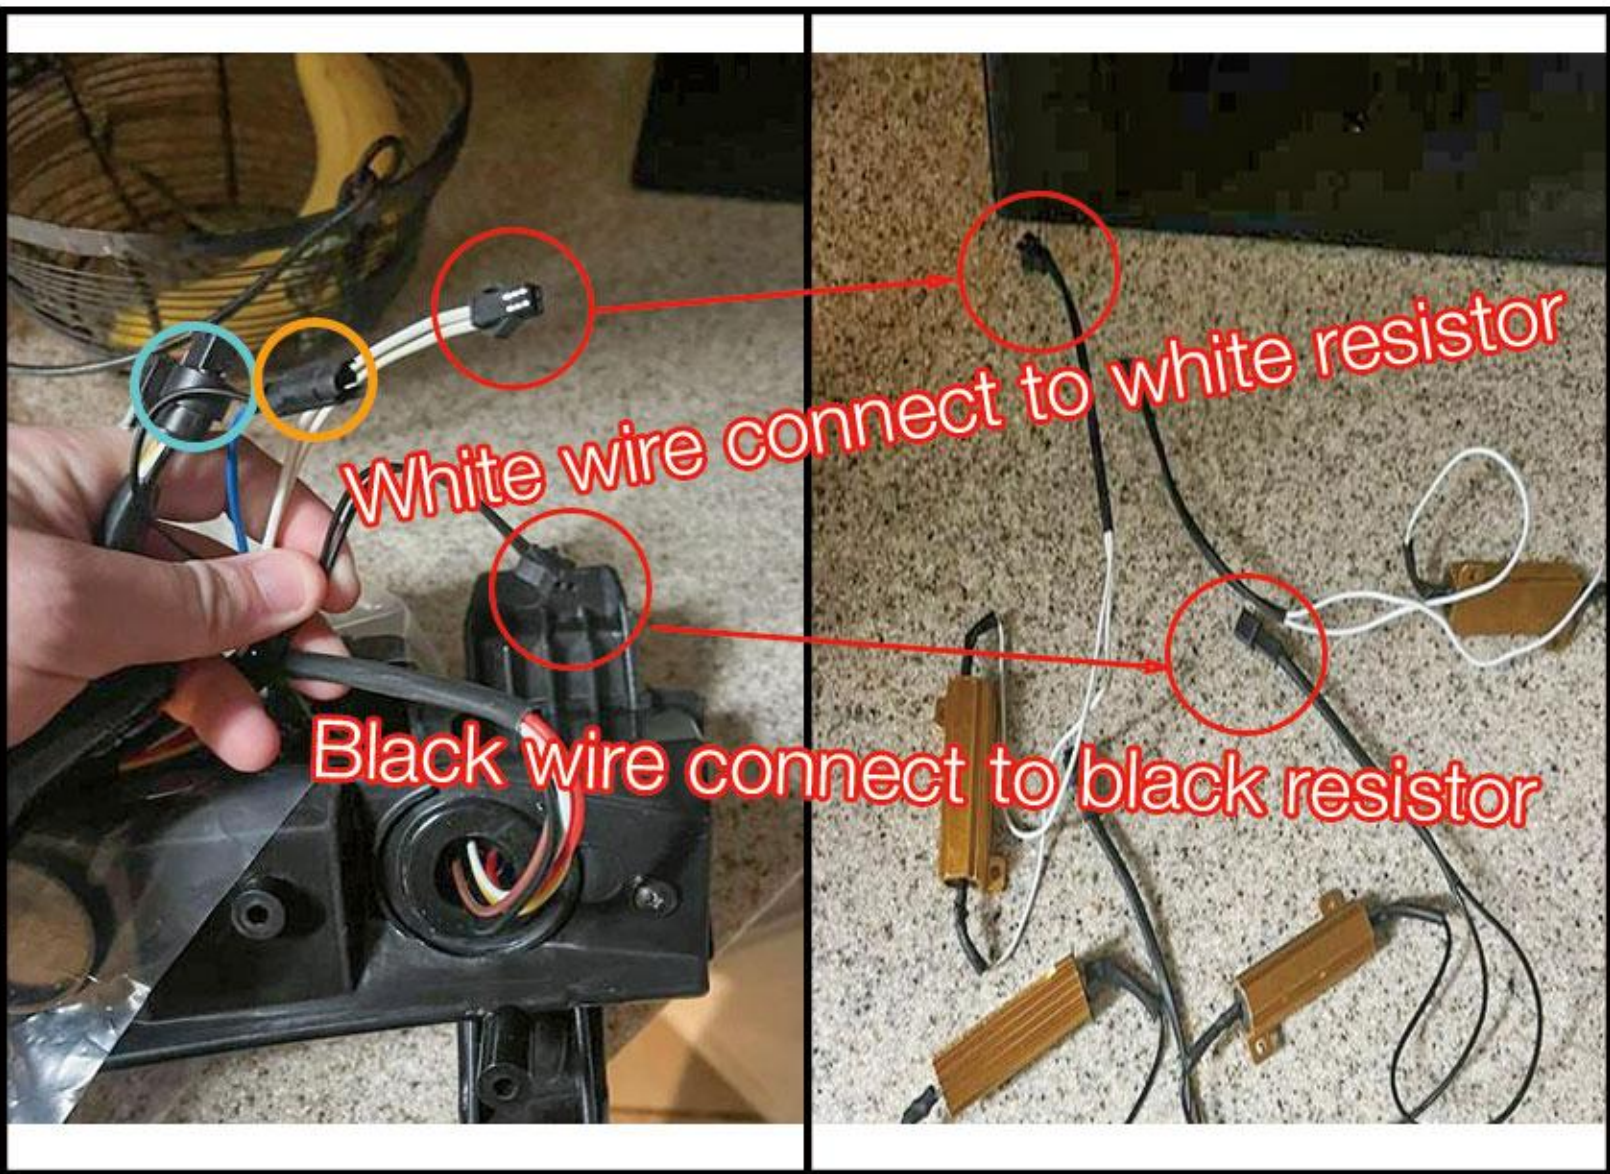

LIGHT BRACKET REMOVAL:
Locate the screws that hold the light bracket in place and remove them along with the push clip on the top edge of the bracket, and then, remove the bracket. Locate the four screws that hold the DRL light in place and remove them to release the OEM light assembly from the fender.

STEP 4

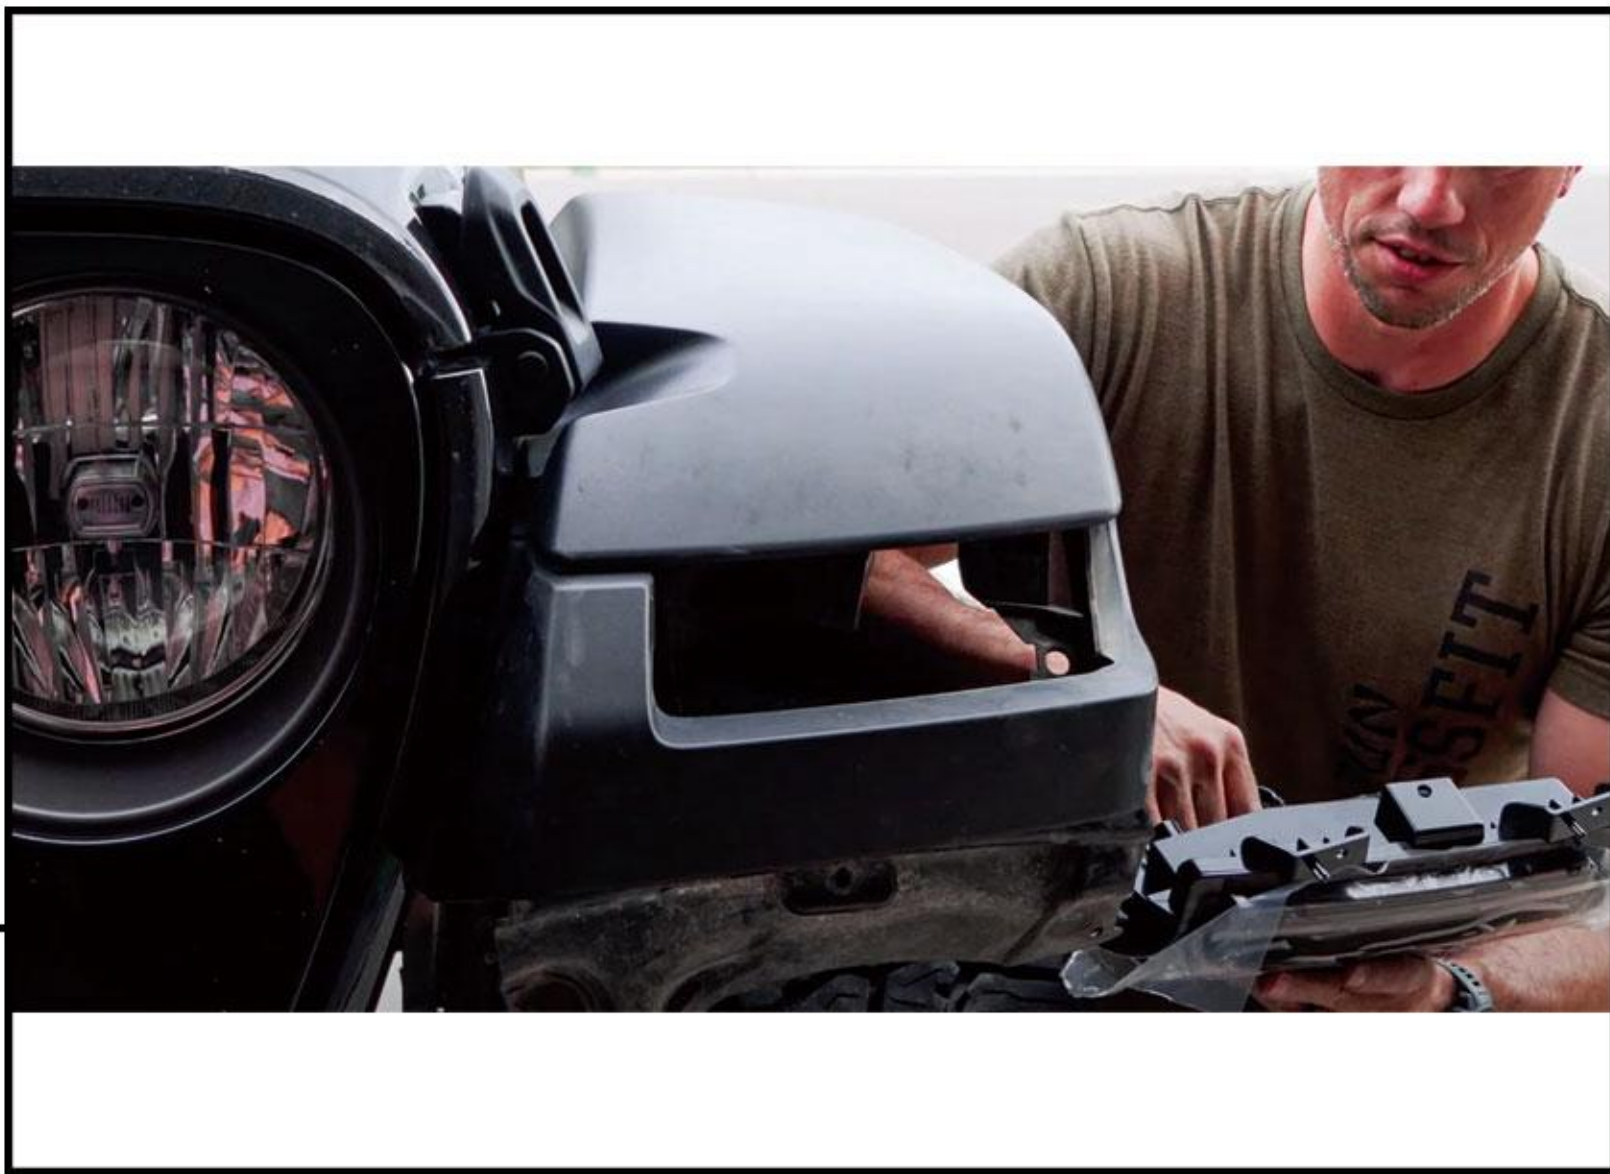

HARNESS REMOVAL:
Using a pick tool or a small screwdriver release the clip on the connector and unplug lights from harness.

STEP 5

 Connect to marker Light.
 Connet to original wire harness

STEP 6

Install the new fender Light assembly and side marker light using the OEM screws and reconnect the power harness.

STEP 7

Do the same on the other side to complete the fender lights installation.
