

# TAIL LIGHT

SKU # AMJPAC03312

## Product Installation Instructions

Fits All 2007-2018 Jeep Wrangler JK/JKU

### STEP 1

Remove the original taillights. Unplug the original plug.

### STEP 2

Remove the cover of 3M tape on the bracket.

### STEP 3

Align the bracket to the position where it needs to be installed. Align the screw holes on the right.

### STEP 4

Fix the bracket with the 2 mounts in the packages. Make sure the stand does not shake.

### STEP 5

Fix the iron sheet and the resistive decoder with screws.

### STEP 6

And the black buckle is in the corresponding position of the gasket.

### STEP 7

Fix the assembled gasket in the corresponding position of the car.

### STEP 8

Plug to the original taillights wires.

### STEP 9

Fix the taillights assembly to the brackets, and fix with screws to complete the overall installation.
