

TURN SIGNAL LEVER EXTENSION

(2018-2024+ WRANGLER JL)
(2020-2024+ GLADIATOR JT)

INSTALLATION INSTRUCTIONS

CONTENTS

(1) Front Extension Panel
(1) Rear Extension Panel
(1) Allen Bolt
(1) Hex Nut
(1) Allen Key

TOOLS REQUIRED

Allen Key (Provided)
Small Flathead Screwdriver

STEP 1

Remove the Allen bolt and Hex nut from the assembly, and separate the two halves of the lever extension.

STEP 2

Fit the rear half of the lever extension to the vehicle turn signal lever.

STEP 3

Fit the front half of the lever extension to the vehicle turn signal lever, and clip the two halves together.

STEP 4

Using the included Allen bolt and hex nut, secure the turn signal lever extension into place. Use a small flathead screwdriver to hold the hex nut in place while tightening the Allen bolt into the hex nut. Tighten until secure.

Installation is now complete.
