STEP 1

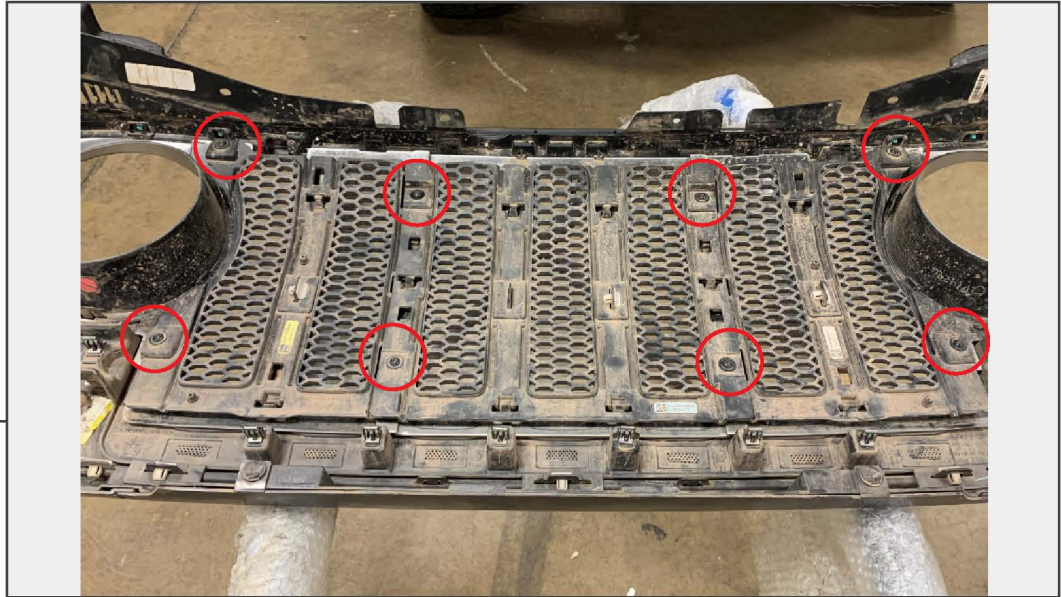

Remove the (6) push clips from the top of the grille.

STEP 2

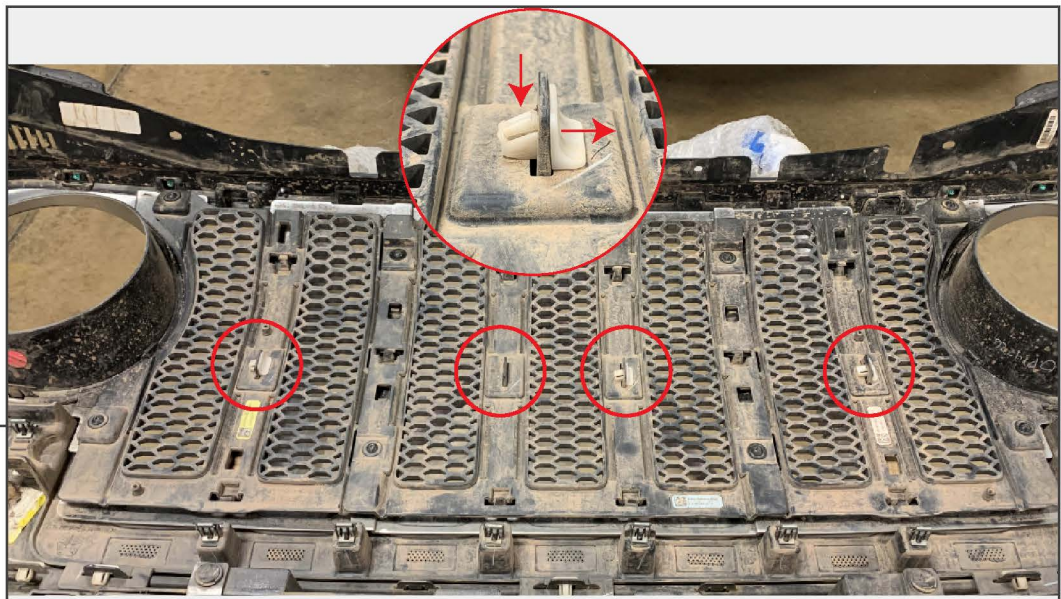

Firmly pull around the lower edges of the grille to release the lower retaining clips. Remove the grille from the vehicle and place on a soft surface.

STEP 3

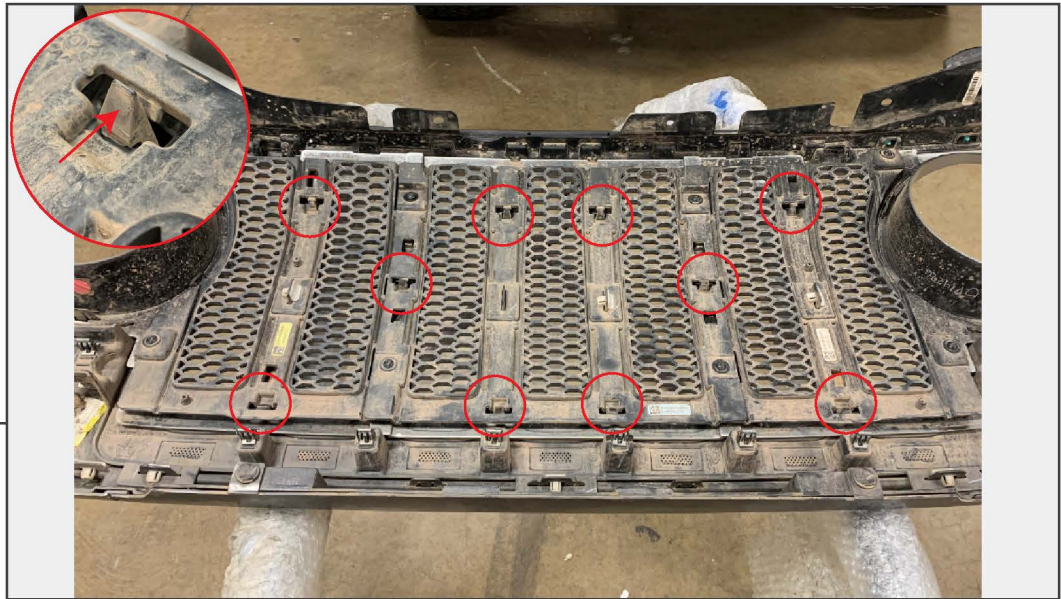

Remove the (8) T-20 Torx bolts from the back of the grille.

STEP 4

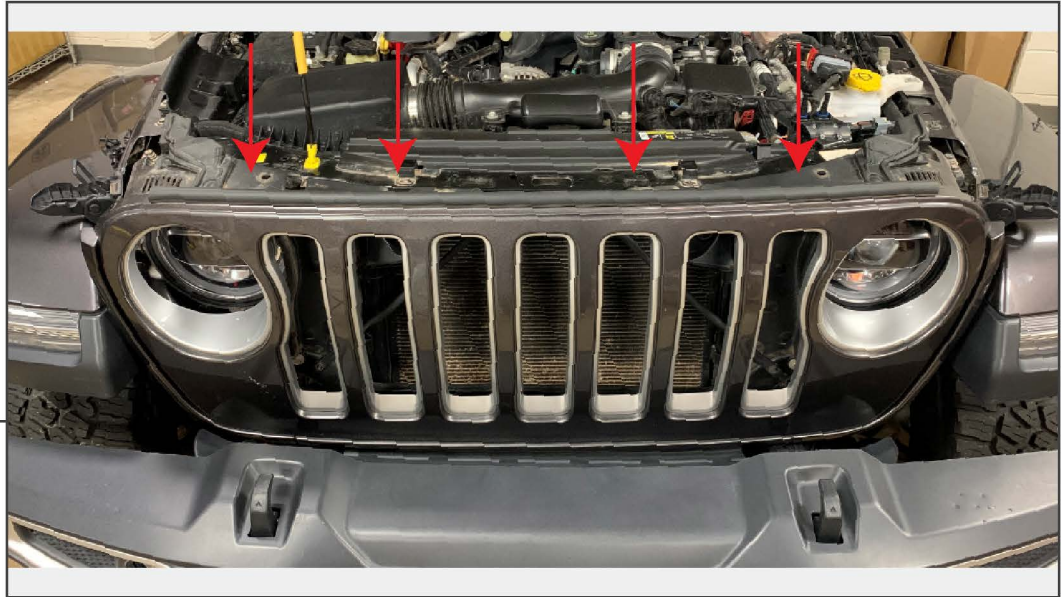

Remove the (4) white plastic clips from the back of the grille. Press down on the tab and slide the clip out.

STEP 5

Gently pry back on the grille insert retaining tabs to release the inserts from the grille assembly.

STEP 6

Reinstall the (8) T-20 Torx bolts into the grille in the original location.

**STEP 7**

Loosely fit the grille to the vehicle. Place the grille insert in between the vehicle and the grille through the top.

**STEP 8**

Insert the lower retaining clips into the vehicle, then reinstall the (6) push clips into the top of the grille.

Installation is now complete.
