## INSTALLATION INSTRUCTIONS

### CONTENTS

---

(1) All Weather Cover

### TOOLS REQUIRED

---

Adjustable Wrench  
Exterior Cleaner (Optional)

SKU # J240020

## STEP 1

Clean vehicle using automotive soap and water. Remove the vehicle antenna using an adjustable wrench, if applicable.

## STEP 2

Lay the cover out to locate the (2) straps. Un-clip the (2) strap buckles. Locate the front of cover by finding the tag that points to the front.

The arrow will point forward away from vehicle when cover is installed.

### STEP 3

Drape the cover over the front of the vehicle. Then, work the cover over the vehicle towards the rear.

Once fully fitted, using the (2) straps, buckle the straps together on each side, and tighten the straps to secure the cover into place.

Installation is now complete.
