# FUEL FILLER DOOR COVER

(2018-2025+ WRANGLER JL)

---

## INSTALLATION INSTRUCTIONS

### CONTENTS

---

(1) Fuel Door  
(1) Rubber Grommet

### TOOLS REQUIRED

---

10mm Socket and Ratchet  
Soft Pry Tool.

SKU # J240538

**STEP 1**

Begin by opening the tailgate to access tail light trim cover. Using a soft pry tool, remove the cover.

**STEP 2**

Using a 10mm socket, loosen the plastic tail light retaining screw.

---

**STEP 3**

Pull the tail light away from the vehicle to access the light's wiring connection.

---

**STEP 4**

Slide back the plug's red locking tab. Then depress the connector tab and pull the plugs apart. Set the light aside.

**STEP 5**

Remove the fuel cap from the filler neck. Then using a soft pry tool, remove the cap's tether

**STEP 6**

Through the tail light opening access the back of the factory trim panel. Depress the plastic tabs around the factory trim and remove the trim panel from the vehicle.

---

**STEP 7**

Align the locating tab on the new fuel door with the vehicle alignment slot. Carefully press the new fuel door over the fuel filler neck and on to the vehicle. Firmly press the fuel door to the vehicle to engage all mounting clips.

---

**STEP 8**

Following Steps 1-5 in reverse order, re-install the fuel cap and tail light to the vehicle.

Installation is now complete.
