- Exterior Detailer
- Microfiber Cloth

SKU # J242493

REDROCK

STEP 1

Locate and remove (6) T-40 Torx bolts from the vehicle windshield hinge.

STEP 2

Remove the vehicle windshield hinge from the vehicle. Clean the windshield hinge mounting area using exterior detailer and a microfiber cloth.

REDROCK

STEP 3

Align the new windshield hinge to the vehicle, and loosely secure into place using the provided (6) M8 bolts and (8) M8 flat washers. Fit the hinge into place, and evenly tighten all hardware until the hinge is fully secure.

Repeat Steps 1-3 for the opposite side windshield hinge.

Installation is now complete.
