(1) Center Console Tray Assembly
(3) Alcohol Prep Pads
(3) Adhesion Promoter Prep Pads

TOOLS REQUIRED

N/A

SKU # J270059
Edited: 02/17/2026

STEP 1 [CENTER CONSOLE]

Test fit the storage organizer assembly to the vehicle center console. Once familiar with fitment, clean the sides of the center console using (2) alcohol prep pad and (2) adhesion promoter prep pad.

Allow the center console to fully dry, then peel the double sided tape backing from each panel and press each side of the storage organizer into the center console firmly to ensure proper adhesion.

STEP 2 [GRAB HANDLE]

Press the grab handle tray into the vehicle dashboard grab handle until fully seated. The storage tray is a friction fit.

STEP 3
[ARM REST]

Clean the panel under the vehicle arm rest. Test fit the storage tray by fitting around the arm rest locking posts and closing the lid. Once familiar with fitment, clean the center console using (1) alcohol prep pad and (1) adhesion promoter prep pad.

Allow the center console to fully dry, then peel the double sided tape backing from the storage panel and install the panel to the arm rest locking posts. Firmly press the tray into the center console to ensure proper adhesion. Installation is now complete.
