

STORAGE ORGANIZER COMBO KIT

(2018-2023 WRANGLER JL)

INSTALLATION INSTRUCTIONS

CONTENTS

- (1) Grab Handle Storage Tray
- (1) Arm Rest Storage Tray
- (1) Center Panel Organizer
- (1) LH Door Panel Pocket
- (1) RH Door Panel Pocket
- (3) Alcohol Prep Pads
- (3) Adhesion Promoter Prep Pads

TOOLS REQUIRED

T-30 Torx Bit/Driver

STEP 1 [CENTER CONSOLE]

Test fit the storage organizer assembly to the vehicle center console. Once familiar with fitment, clean the sides of the center console using (2) alcohol prep pad and (2) adhesion promoter prep pad.

Allow the center console to fully dry, then peel the double sided tape backing from each panel and press each side of the storage organizer into the center console firmly to ensure proper adhesion.

STEP 2 [GRAB HANDLE]

Press the grab handle tray into the vehicle dashboard grab handle until fully seated. The storage tray is a friction fit.

STEP 3 [ARM REST]

Clean the panel under the vehicle arm rest. Test fit the storage tray by fitting around the arm rest locking posts and closing the lid. Once familiar with fitment, clean the center console using (1) alcohol prep pad and (1) adhesion promoter prep pad.

Allow the center console to fully dry, then peel the double sided tape backing from the storage panel and install the panel to the arm rest locking posts. Firmly press the tray into the center console to ensure proper adhesion.

STEP 4 [DOOR PANEL]

Locate and remove (2) T-30 Torx bolts under the door panel grab handle. Then, fit the appropriate door panel pocket to the bolt holes. Secure the pocket to the door panel reusing the original (2) T-30 Torx bolts. Repeat this step for the opposite side of the vehicle.

Installation is now complete.
