

CROSSBAR ROOF RACK

(2007-2018 WRANGLER JK - 4 DOOR)
(2018+ WRANGLER JL - 4 DOOR)

INSTALLATION INSTRUCTIONS

CONTENTS

- (1) Front Cross Bar (127cm)
- (1) Rear Cross Bar (129cm)
- (4) Cross Bar Mounts
- (4) Phillips Head Screws

TOOLS REQUIRED

- Phillips Screwdriver
- 6mm Allen Key

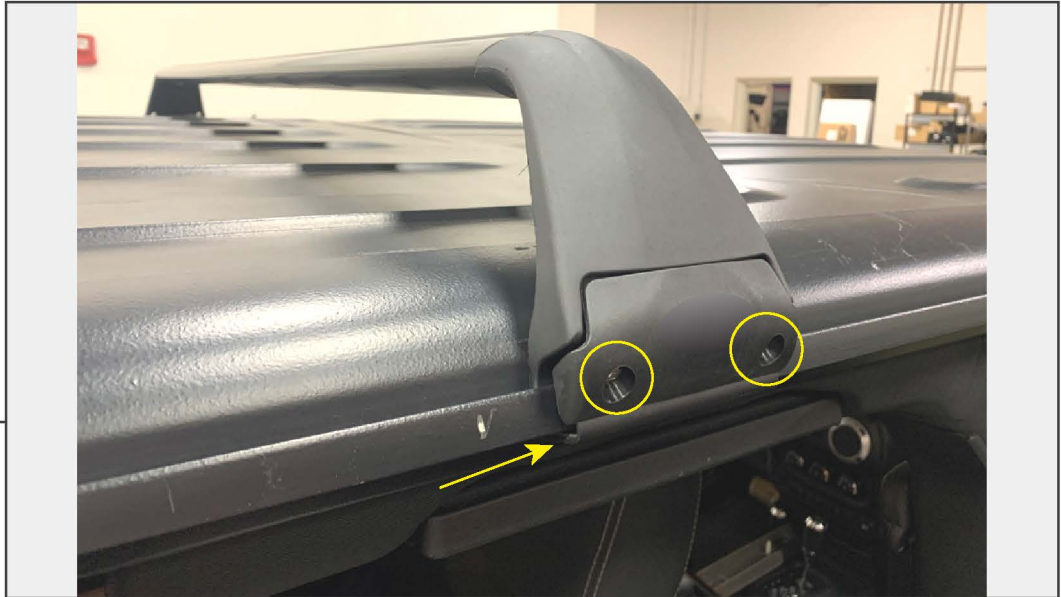

STEP 1

Lay out the included components. Take note to the lengths of the cross bars, the shorter cross bar fits the front of the vehicle.

STEP 2

Install the cross bar mounts to the cross bars using (1) Phillips screw per mount.

Repeat this step for the remaining cross bar mounts.

STEP 3

Loosen the (2) Allen bolts per cross bar mount to allow the mounting bracket to lower. Place the mounting bracket under the hard top on both sides, then evenly tighten the brackets to allow the roof rack to tightly fit to the hard top.

STEP 4

Repeat steps 1-3 to the remaining cross bar roof rack.

Installation is now complete.
