

LED HITCH STEP

(UNIVERSAL - TRUCKS WITH 2" HITCH RECEIVER)

INSTALLATION INSTRUCTIONS

CONTENTS

- (1) Hitch Step
- (1) U-Bolt
- (1) Reinforcement Bracket
- (2) Nuts
- (6) Wire Harness Hold Downs
- (6) Zip Ties
- (2) ScotchLok Connectors

TOOLS REQUIRED

- Socket Set
- Ratchet

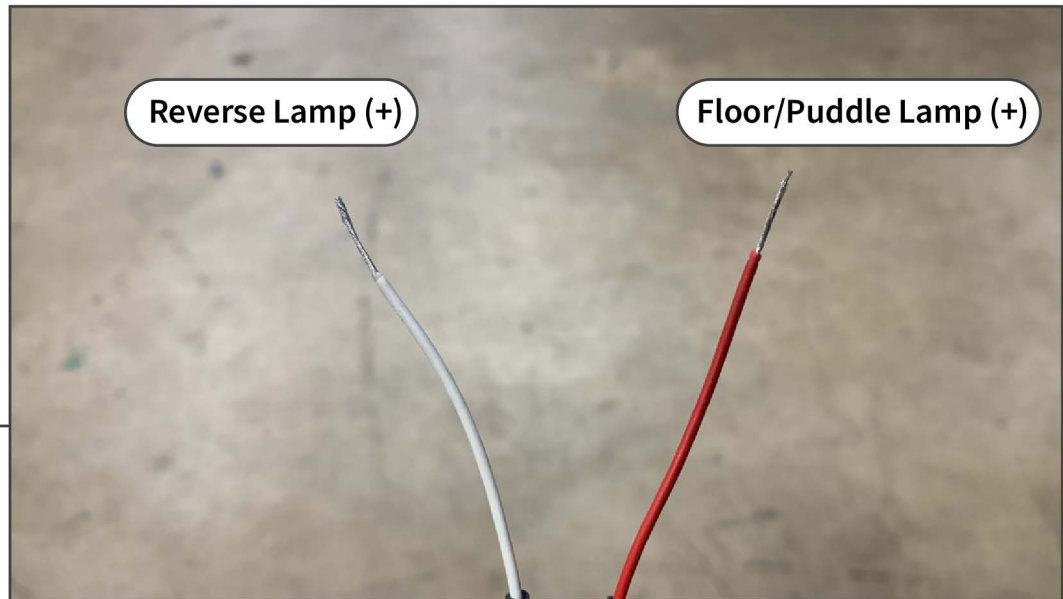

SKU # T568764

**STEP 1**

Insert the LED hitch step into the vehicle hitch receiver and secure using a hitch pin (not included). Using (1) U-Bolt, (1) reinforcement bracket, and (2) nuts, secure the step to the bottom of the receiver.

**STEP 2**

Plug the hitch step 4-pin wiring harness into the vehicle 4-pin trailer connector.

STEP 3

Wire the (2) separate wire leads to the vehicle lighting using the diagram below. Splice each connection using the provided (2) Scotchlok connectors.

<u>Hitch Step Wire Leads</u>	-	<u>Vehicle Harness</u>
Red (Floor/Puddle Lamp)	-	Parking Lamp (+)
White (Reverse Lamp)	-	Reverse Lamp (+)

STEP 4

Neatly route all wiring harnesses to the vehicle to prevent damage.

Installation is now complete.
