

LED LICENSE PLATE LIGHTS

(2009-2016 Tacoma)

INSTALLATION INSTRUCTIONS

CONTENTS

(2) LED Lights

TOOLS REQUIRED

Phillips Head Screw Driver

SKU# TT6702

STEP 1

Using a Phillips head screw driver, remove the screw securing the light housing to the bumper.

STEP 2

Twist the light socket and remove housing from the bump assembly.

STEP 3

Remove the factory light bulb and install the LED light plug into the socket. Test the lights for functionality prior to re-installing. If the light doesn't illuminate, rotate the LED plug 180° and try again.

STEP 4

Twist the light socket assembly into the LED housing. Reinstall the housing to the bumper using the factory screw. Installation is now complete.
